

## ADA Website Accessibility Statement

If you have any questions or concerns about the accessibility of our site, please Contact us and we will work on resolving the issue.

In addition to always using the latest versions of operating systems, assistive technology, and apps here are some hints you may find helpful.

Zoom:

Windows – Press the Windows Key and plus sign (+) or minus sign (-) to zoom in or out. There is also a “Magnifier” option under “Accessories”.

Mac – Go to “System Preferences” > “Universal Access” > “Seeing” and check the box under “Zoom” to “On”.

iOS device – Select “Settings”> “General” > “Accessibility” > and toggle the button for “Zoom” to “On”.

Web browsers – Press the “Ctrl” (“Cmd on a Mac) and the plus sign (+) or minus sign (-) to zoom in or out.

Chrome: Select “Settings” > “Appearance” > “Font Size” > “Customize Fonts” or set the default to “page Zoom”.

Safari: Select “preferences” > “Appearance” and the “Select” button next to the font fields.

Microsoft Edge: Use the scroll wheel on your mouse or Select “Settings” > “Appearance” and change the Page Zoom to the desired percentage.

Mozilla Firefox: Select “Options” > “Content” > “Fonts and Colors”.

Enable Screen Readers:

There are free options including JAWS and NVDA for windows and VoiceOver for Mac that can work with your favorite web browser.

Mobile Device Accessibility Tools:

VoiceOver for iOS and TalkBack for Android are screen readers built into the systems. You may also be able to Invert, Filter or Change Color Settings to increase readability.
